All Year Round Multi Purpose Spreader Fast - Efficient - Easy To Use

The Apache RLX 350 Spreader/Gritter is ideal for year-round use and can be quickly attached to any ATV, Quad Bike, Utility Vehicle, Tractor Lawn Mower or other suitable towing machine.

Ideal for spreading grass seed, fertiliser, sand, seed, slug pellets and more, and in winter icy conditions, for spreading salt and grit around the yard, on driveways, lanes, car parks, pathways and roads.

Manufactured using high grade steel with powder coating for protection, the spreader has a hopper capacity of 350lbs with an adjustable spread width of 3 to 8 metres.

A multi-use, robust, lightweight and easy to tow spreader that is designed to last at a highly competitive price.
